NEP TESTIMONIALS

Bright space with lots of natural lighting, with a modern design. Restaurant was very busy but not too loud, a good environment for brunch.

Our server was so lovely and prompt. The decor & vibe is trendy and beautiful. And the food was high quality and full of flavor. And the coffees, drool!!

Interior was super pretty, definitely catered towards young adults and their aesthetics -- got the plants, uniformed dressed code, really nice bar, etc. Place was super clean as well. Food was tasty and the amount of each ingredient used was perfect. Really vibed with the music too. Amazing place for just catching up and chit-chatting.
